Drawing an Arizona sheep tag is an incredibly special opportunity; it's a once in a lifetime animal in AZ. Because of the long, 31 day season, we offer the opportunity to split up your hunting days as you see fit. For example, if you book a 10 day hunt, we can hunt 5 days in the beginning of the season and the other 5 days at the end of the season. There are several benefits to this option. These hunts can be very physically demanding and with a break in the middle of the season, it will give you time to recover, refocus, and be more efficient going back out there. Also, if for some reason we are having trouble locating the target ram, this will give us a chance to relocate him and get you back on him.

The last thing you want to do with this tag is to settle for anything less than the ram of your dreams. After all, you'll only get to do this one time in your life!

With all of our sheep hunts, you will have 2 *guides* for the duration of your hunt. If you would like to add additional guides, its \$500 per day, per guide. With sheep hunts, it's vital to have as many guides as possible out glassing and searching for the target rams.

In most cases, if you have reached the end of your hunt and have not harvested a ram, we may be able to add additional days to the hunt, at \$1000 per day.
